

PACKAGE: Discover Pesaro following Rossini's footsteps

Enjoy an entire day together with Gioachino Rossini along with his music, his places and his food specialties!

In the morning, guided visit in the chosen language of the composer's birthplace and of the backstage of Teatro Rossini in Pesaro: a journey behind the scenes of the theatre to discover, in an unusual and new way, secrets and hidden areas of this fascinating place, accompanied by an experienced "insider" of the theater.

The goal is to give a different point of view: the Teatro Rossini is not only just a stage with its appearance of a "performance container" but the show is the theater itself. Emotions flow while the secrets of the theatrical machine are revealed, increasing the charm of these places.

At the end of the tour, in the "ridotto" (Sala della Repubblica) of the theatre, a private music performance by professional players followed by a brunch with typical local dishes.

In the afternoon, guided visit in the chosen language of the Music Conservatory, founded by G. Rossini to celebrate his birth town. Included is the visit of the first ambisonic perifonic spherical room created on the Italian territory and called "SPACE": a listening room for testing, research and sound composition to recreate and manipulate an immersive environment using three dimensional audio technologies at the cutting-edge of 3D spatial sound. Here visitors (in small groups of 14 participants) will test different music and effects based on Rossini compositions
